Wenzhou Fuchuang Valve Technology Co., Ltd. is a company that designs, manufactures and sells various pipeline matching valves. The company has been established for many years, has strong technical strength, sophisticated CNC machine tools and testing equipment, and lays a solid foundation for producing high-quality products. Over the years, the products have been sold all over the country and exported to Europe, America, the Middle East, Africa, Southeast Asia and other countries.

The company specializes in the production of stainless steel mini ball valves, floating ball valves, faucets, exhaust valves, check valves, screw ball valves, gate valves, globe valves, check valves, quick nozzles and stainless steel substitute copper valve series, etc., and can also be customized according to customers. Need to customize non-standard products.

Years of production experience, advanced production technology, high-quality product quality, and honest business philosophy have won the affirmation and support of domestic and foreign customers, and is also the designated production supplier of many international and domestic well-known enterprises. Products are widely used in: beer, dairy, pharmaceutical, beverage, chemical and complete machinery manufacturing and other fields.

As a high-quality supplier of professional fluid pipeline matching in China, Fuchuang Valve has maintained close technical cooperation and economic and trade cooperation with foreign counterparts for many years. Adhering to the business tenet of "development by quality", "survival by reputation" and "innovation-oriented", we sincerely welcome customers from all walks of life to come to negotiate business, guide and cooperate, let us join hands in creating a brilliant tomorrow!
